

TIMER SFE-EV PRO

DESCRIPTION

SFE-EV Pro is an intuitive, easy to use and powerful controller thanks to its advanced programming options. Its programmable relays and a useful remote start signal dramatically increase its performance. Furthermore, the backlit LCD display can be customized and also accommodate any customer's logo or company's name.

FEATURES

- Covers higher volume demand applications
- Carry over of well-known SFE or SFE-EV functionalities
- 3 free contact relays, each one programmable in 12 different mode
- Ideal for customer specific applications
- For duplex and simplex systems
