

SIATA V132

DESCRIPTION

V132 is a residential valve with the flow rate up to 7 m³/h. It features quick connect clips allowing an easy installation and maintenance. In addition V132 has options including mixing device (perfect for residential softeners up to 800 L/h flow rate), a backwash flow control (for filter and demineralization installations) or a control pressure replicator (for any special applications).

FEATURES

- Valve body in ABS material
- Flow rate of mixing device for residential softeners is up to 800 L/h (up to Ø 10")
- Quick connect clips
- Control pressure replicator

VALVE SPECIFICATIONS

Service Flow	7 m ³ /h
Backwash Flow Rate	3.3 m ³ /h
Operating Pressure	1.5 - 6 bar
Valve Material	Glassfiber reinforced ABS
Colours	Blue
Valve Mounting	Top Mounting
