

# THERMAL INSULATION JACKETS

## THERMAL INSULATION JACKETS

Protects the filtration unit from heat losses in heating installations, condensation in ice water installations. This jacket is mounted very easily without tools, after connection to the installation, around the body and on the cover and thus isolates the whole of its environment.

**Cleanliness site:** condensation removed: more water runoff

**Saving energy:** reduced energy losses around the filter.

**Health and Safety:** reduced exposure to hot surfaces

## INSULATING JACKET FOR LOW AND HIGH TEMPERATURE APPLICATIONS

REFERENCE	ITEM NAME
180000094	DN20 Insulation jacket
180000091	DN32 Insulation jacket
180000092	DN40 Insulation jacket
180000093	DN50 Insulation jacket
180000095	DN80 Insulation jacket

## DOSING LIDS

REFERENCE	ITEM NAME
6108027334	Top plate DN20/32 (kit)
6108027335	Top plate DN40/50/80 (kit)

## WALL BRACKET

REFERENCE	ITEM NAME
6108010021	Wall brackets DN20/32 (pair)
